requirement. (Example: enrollment in a specified program of study at a community college to earn credit in related skill areas.)

2. A detailed Work-Related Portfolio Assessment that must be completed before registering for the Professional Core. This portfolio will be assembled by potential students for evaluation by Troy University. In turn, TROY will determine appropriate academic credit (hours) and recommend any additional credentials needed to earn the full 30 hours required.

Troy University recognizes that some students may have acquired knowledge and skills through life experiences, but may not have recognized credentials indicating currency and/or competency in those skills. The **Work-Related Portfolio Assessment** allows students the opportunity to have life/work related experiences evaluated as educational experiences and credited toward the BSOE Area 2: Work Related Experience. This portfolio is a collection of materials which represent a student's life experience in a certain subject area or skill. It will be assembled by potential students for evaluation by Troy University. In turn, TROY will determine academic credit (hours) and recommend any additional credentials needed to earn the full 30 hours required.

Portfolio contents include:

Cover Letter (Required): A cover letter briefly summarizes and clarifies the life experiences, work related activities, and credential for which credit is requested. This letter can include:

- Community service
- Correspondence courses
- Employment
- Learning through technology
- Non-credit experience
- Certificates, licenses, awards
- Travel

Resume (Required): A more in-depth description of the applicant's personal history such as education, employment, experiences, awards, etc.

Job description(s): Detailed descriptions of past employment commensurate with skills/ability claimed. This includes duties, responsibilities, length of employment, and any other details that would indicate work related experience.

Documents: Documents indicating proficiency levels in relevant areas of performance. This could include certificates, licenses, awards, supervisory ratings, commendations, and/or any other verification of skills.

Reflections: Written documentation of personal accomplishments and why the applicant feels their experiences merit academic credit.

Artifacts: Samples of work demonstrating applications of the concepts and principles in the skill being considered, such as engineering drawings, technical manuals, publications, video and/or audio tapes, and any other creations deemed appropriate, etc.

NOTE: Students submitting credentials or the portfolio are provisionally admitted. They will be permitted to begin Area 3 (the Professional Core) only after TROY has rendered a decision regarding credit award and additional credentials needed.
